**Luxury
California**

Since 1961, Fleetwood Windows & Doors has crafted American-made luxury products with the refined minimalism of coastal California.

Fleetwood designed the original luxury aluminum door that became an iconic feature of modern Los Angeles architecture. Each Fleetwood product is a study in modern architectural elegance, handcrafted and engineered to endure coastal air, searing sun, and shifting climate needs without compromising beauty or performance.

- Fire-Resistant 6063T Aluminum
- Industry Exceeding Quality Standards
- Proprietary Marine-Grade Stainless Steel Hardware
- Certified Swiss Precision Bearing Rollers
- Unmatched Coastal Performance Warranty
- Class I Anodized and Unlimited Kynar 500® Custom Paint Finishes
- Southern California Manufacturing, Delivery, and Local Factory Service

Remarkable Strength Miraculous Results

Designed by Shelter Homes and built by JJP Construction, this home triumphed in the midst of the Palisades wildfire despite the surrounding neighborhood's devastation. Its endurance is a credit to smart home design, thoughtful construction, clean landscaping, and the use of fire-resilient materials, like Fleetwood's windows and doors. Fleetwood products can be specified with a variety of high-performance tempered glass. They are sustainable, eco-friendly, and meet California Wildland-Urban Interface (WUI) and Title-24.

Transferable Lifetime Warranty

Fleetwood's durability is unparalleled, which is why we offer the only *true* Transferable Lifetime Warranty. Most warranties end with the original buyer. Fleetwood's warranty seamlessly transfers to every new homeowner for the life of the product—ensuring lasting peace of mind and value.

Industry's Preferred Choice

It's all in the details. Product and service matter. Fleetwood meets all expectations on design aesthetic, meets all city codes and standards, and best of all, they service their products. Their doors and windows are dependable products, and they stand behind them to make sure they last for the life of the home!

- Jason Pietruszka, Shelter Homes & JJP Construction, Los Angeles, CA
